VIDEO ENTRY/ CDV-BDU - Bus controller

Product description

The CDV-BDU can be used in three different configurations *(contact CDVI technical support for more information)*:

• **Amplifier:** cable distance can be increased from the standard 160m from the door station to the internal monitor to a total distance of 280m using UKC8471 or equivalent.

• **System expander:** allows multiway entry systems of up to 128 users.

• **Gateway:** allows "main" door panel to be added to multi-block complex, which enables to call all apartments instead of the apartments in the associated block only.

Key features

• Three modes of operation: Amplifier, system expander, gateway

• Simple conntectionto main data bus

• Standard DIN rail mounting

• Easy set up

CE   *Certification*

DEEE

RoHS *Certification*

-15°C to 55°C
