Security to Access

Datasheet

TRANSMITTERS/ TX128-E range - Hand-held High Security

Product description

The TX128-E range are high security transmitters with rolling code technology and 128AES encryption. They are ideal for automated doors and gates, public or private access, residential or industrial environments.

The TX128-E range can only be utilised with the RX128-XPL and the RX128-NANO, ensuring the 128AES encryption.

The full range of hand-held transmitters are rolling code technology, increasing the security of the transmitted signal by changing constantly. Each product is powered with a changeable battery.

ERONE
THE SMART LIVING

TX128-E2   TX128-E4

Key features

- High security transmitters
- 128-bits AES encryption
- Up to 250m range in open field
- Available in 2 or 4 channels
- Internal and external use
- Wire-free application

Product Information

Frequency: 433.92MHz
Modulation: AM/ASK
Coding: Rolling Code Keeloq®
Encryption: 128-bits AES
Range: Up to 250m in open field

Electrical specifications

Supply: 3V (CR2032 Lithium battery included)

36 mm

72 mm

12 mm
