

## Datasheet

### TRANSMITTERS/ TX39-E range - Channel fixed code

#### Product description

This fixed code transmitter is ideal for general activation of a receiver, generally used as an exit device or for clean-room areas where contact is not permitted.

The TX39 range of hand-held transmitters fixed code allowing new transmitters to be easily issued once the first transmitter has been stored in the receiver by just setting the code via dip switches.

Each product is powered with a changeable battery. A compatible wall holder (SESMT02) is available for a more convenient use.

TX39-E2

TX39-E4

#### Key features

- Fixed-code transmitters
- 200-400m read range in open space
- Available in 2 or 4 channels
- Internal and external use
- Cost effective switching
- Wire-free application
