

Product Code

F05484

MARINE VIDEO PANEL LYNX ST1 CP 101

Reference

5484

EAN

8424299054841

Description.

Description

Lynx is **the most advanced technical system** for communication, security and comfort management in residential complexes. Lynx has transformed the world by establishing new standards in the processing capacity and performance of video door equipment. Lynx is **much more than a simple TCP/IP** as it provides the best solutions for system integrators and the apartment residents. It merges the most advanced technology, design and product engineering with their present and future needs: 1. **Communication**. It connects the interior and the exterior of the apartment, enabling an interactive community for the residents, thereby guaranteeing their privacy. 2. **Security**. It maintains a permanent, reliable and simple connection with the building's service personnel, ensuring the protection and security of each family. 3. **Comfort**. It grants freedom to the system integrator to select and configure the system and its automation in accordance with the specific needs of each resident. **Easy and simple installation with maximum robustness:** - Power over Ethernet (PoE) simplifies installation. - Lynx can be installed on already existing local area networks, use structural cable systems (SCS) and standard network equipment. - The point-to-point SIP architecture permits the independent operation of each device without the need for a central server. - Thanks to the configuration by means of an SD card, installation becomes a simple process. **Unlimited technical capacity:** - A virtually unlimited number of monitors can be managed on one single Lynx installation. - Unlimited distances between one point to another. - Unlimited channels for conversations and data transmission. **The Lynx system**

marks the differences compared to the most advanced systems. Installed at building access points, allows communication with apartments, door release, calls to concierge, etc. Includes COLOR camera with built-in lighting. Fermax Marine Line in stainless steel.

Marine is the anti-vandal panel line manufactured in 2.5 mm thick stainless steel.. Straight lines that highlight the quality of the steel. State of the art technology and resistance to even the most corrosive, humid and dangerous atmospheres.

Colour aluminium The anti-vandal pushbuttons, made in stainless steel and with anti-blocking system, withstand any impact.

Buttons include a card slot to insert a label with the name of the home owner and door number.

Technical Details

Lynx amplifier power supply: 12V DC. Vivo monitors power supply: 12V DC or PoE 802.3af standard Consumption: - on standby: 190 mA. - audio active: 500 mA. IP:54 IK:09 Audio capacity home-outdoor panel: 2W Audio power direction apartment-outdoor panel (speakers): 2 x 2W Two-way volume control Video - Resolution: VGA (640x480 pixels). - Sensor: 1/3" color CMOS. - Effective pixels 270K pixels. - Minimum external illumination: 0,5 lux. - SNR >45dB. - Frame rate 25 fps. - Auto iris. - Auto BLC. - View angle 62° H, 48°V. - Color night vision through white led. Operating temperature: -10 to 60 °C Series ST1 Panel.

- Panel measurements: 150x180 mm (width-height):

- Flush-fit box dimensions: 130x160x55 mm (height-width-depth).

- Surface mounted box dimensions: 154x184x95 mm (height-width-depth).

Hood: 154x184x40 mm (height-width-depth).
